SCIENCE OF READING - OVERVIEW

The **Science of Reading** Program requires explicit instruction of phonological, orthographic, and morphological knowledge so students can decode and encode regular words and irregular words.

In grade 6, the focus in the curriculum is on decoding and understanding affixes (prefixes and suffixes). Teachers are also required to use derivational families to support spelling words with different letter blends.

Therefore, our reading program will be broken down into 30 weekly word lists that align with the skills and procedures in the grade 6 conventions and vocabulary curriculums. Each week, teachers will focus on one affix and two graphemes.

The remaining words in the word lists consist of challenging vocabulary that students in grade 6 can become familiar with. They will work with these words to build automaticity when decoding and to add these words to their everyday vocabulary.

IDENTIFY RUN ON SENTENCES

What Are Run-on Sentences?

Run-on sentences are sentences that are too long and have more than one complete thought without proper punctuation. Instead of separating the ideas into separate sentences, they are connected without pause.

Example:

- I love to read books I read for at least an hour every day.
- He wanted to play outside it was raining too hard.

Sentence _____ **Correct** _____ Label each sentence as correct or run-on.

	Sentence	Correct / Run-On

2	My dog chased the cat it climbed a tree.	
3	My favourite subject is science.	
4	The sun sets beautifully over the ocean.

Analyze _____ Underline the run-on sentences in the text.

On a bright summer day, Tim wanted to fly his kite. He ran to the park. Excitement, the park was crowded with children, they were playing soccer, having picnics, and laughing. Tim spotted his friend, Sara. She was reading a book under a tree she waved at Tim, he waved back with a big smile. The wind was perfect for kite flying, Tim tried to launch his kite. It wouldn't go up he tried again, still, it remained stubbornly on the ground. He felt frustrated. He was about to give up. Sara came over to help. She had an idea. They attached a longer tail to the kite, they ran together, holding the kite string, it soared high into the sky, everyone in the park looked up. They clapped and cheered. Tim felt so happy he thanked Sara, they both laughed, it was a great day.

PRONOUNS – INTENSIVE AND REFLEXIVE

Intensive pronouns emphasize another noun or pronoun.

Example: The Queen, **herself** baked the cake. (**Herself** emphasizes "Queen.") An intensive pronoun can be removed without changing the meaning of the sentence.

Reflexive pronouns show the subject, and the object are the same.

Example: The Queen baked **herself** a cake. (The action done by "herself" reflects back to "Queen.") If you take the reflexive pronoun out, you do not know for whom the Queen baked the cake. A reflexive pronoun is necessary to get the full meaning of the sentence.

This is a worksheet where you identify the bold pronoun as Reflexive or Intensive.

1	I myself took the book.	Reflexive	Intensive
2	She bought herself a new dress for the party.	Reflexive	Intensive

In the quaint village of Elden, where houses had thatched roofs and cobblestone pathways, children loved to listen to Grandma Elsie's tales. Although many stories were whimsical, they always held a lesson.

One evening, when the first snow of winter gently covered the ground, Elsie began her favourite tale. Before the age of machines, creatures roamed the forests, guarding the secrets of nature. If anyone ever tried to harm the woods, these guardians would guide them away with gentle nudges. However, if the threat persisted, they'd reveal themselves, showing their true might.

Since that time, the village had always respected the forest. After Elsie's tale, children would scamper off to bed, dreaming of guardians. Whenever they entered the forest, they did so with care, knowing that the magic was real. Through Elsie's stories, the respect for nature continued, ensuring the forest's guardians remained a secret legend.

CONJUNCTIONS

Some conjunctions connect and show relationships between ideas more complex than basic conjunctions like FANBOYS.

Examples:

- **Although** she practiced, she didn't win.
- **Unless** you study, you won't understand.

Examples: after, because, while, once, furthermore, until, where, even though, inasmuch, nevertheless, since, even if, rather than, when, why, before, albeit, consequently, therefore

Instructions: Underline all the conjunctions in the article below.

Studying space is a really interesting, because it helps us understand our big universe. While most people like pretty stars, few actually know the science behind them.

Although telescopes get better over the years, there are still galaxies and things we can't see. Therefore, though we've made progress in exploring space, there's a lot in our own galaxy we haven't seen yet.

Consequently, the universe still has a lot of mysteries and questions we need to answer. Nevertheless, scientists and astronomers are excited to keep looking for these answers.

Inasmuch as we've learned a lot, the universe keeps showing us how amazing it is. Therefore, even as we're happy about what we know, we still have a lot more to learn. Because as long as stars are in the sky, we'll keep trying to know more, no matter how hard it is.

While some might think these were just wind, Ellie understood them as the trees' tales of olden heroes and mystical lands. As the night went on, she listened to the stories until she got sleepy.
