Visualization

As you read, pause and visualize the characters, setting, and objects. Circle the words or phrases that help you imagine the scene.

On a bright and sunny afternoon, three cheerful friends happily rode their shiny bicycles around a wide, grassy park filled with tall, leafy trees and soft, open grassy fields. The trees had thick, dark green branches that provided cool shade from the warm golden sunlight, while a gentle, refreshing breeze softly moved the leaves, creating a calm, rustling sound. A playful brown dog ran quickly across the soft, freshly cut grass, wagging its tail excitedly as it chased a bright red ball thrown by its laughing owner. Nearby, a small, crystal-clear pond reflected the bright blue sky and fluffy white clouds above. Several white ducks swam slowly across the water, leaving gentle ripples behind them, while tiny dragonflies hovered quietly near the sparkling surface.

READING PROGRAM - OVERVIEW

The **Science of Reading** Program requires explicit instruction of phonological, orthographic, and morphological knowledge so students can decode and encode regular words and irregular words.

In grade 7, the focus in the curriculum is on decoding and understanding affixes (prefixes and suffixes). Teachers are also required to use derivational families to support spelling words with different letter blends.

Therefore, our reading program will be broken down into 30 weekly word lists that align with the skills and procedures in the grade 7 conventions and vocabulary curriculums. Each week, teachers will focus on one affix and two graphemes.

The remaining words in the word lists consist of challenging vocabulary that students in grade 7 can become familiar with. They will work with these words to build automaticity when decoding and to add these words to their everyday vocabulary.

In the heart of twilight, two young explorers tiptoed in a magical garden where ruby-red roses and sapphire-blue irises bloomed even under the cloak of night. Glimmering fireflies wove between the flowers, casting a magical glow that danced upon the children's awestruck faces. A maze of towering sunflowers stood like sentinels, their golden heads bowing to the whispers of the evening breeze. Overhead, a velvet sky was sprinkled with diamond stars, winking down at the labyrinth below. A round pond, clear as crystal and still as glass, reflected the moon's radiant smile. The air was filled with the rich, sweet scent of jasmine, inviting the children to sit by the pond's edge, where they could watch the silver fish darting like arrows in the moonlight.

Week 6 – Fluency Readings

Read

Today, you are going to measure your reading speed. You will do this by calculating how many words you read per minute.

Passage – Word Count = 112 Words

In a small town, there was an unbeatable trifecta of friends: Mia, Leo, and Zoe. Mia had a large collection of driftwood, each piece traceable to different beaches. Leo was responsible for their treehouse's drapery, which protected them from the sun during the drought. Zoe, on the other hand, was known for her ability to find treasures. However, one day, Zoe brought a questionable item, and Mia accused her of treason, thinking it was stolen. Leo, feeling drowsy, made a mistake and made drastic decisions based on "drivel." Their friendship, they realized, was irreplaceable and insurmountable, not interchangeable over a simple mistake. They promised never to transgress against each other again.

To calculate your reading words per minute (WPM) speed:

- 1) Find the word count – at the top of the page.
- 2) Record the time taken in seconds to read the entire page.
- 3) Divide the total words by the recorded seconds.
- 4) Multiply the result by 60.
- 5) The final number is your reading speed in WPM.

Example:

Words: 1,140

Time taken: 330 seconds (5:30)

Calculation: $(1,140 \text{ words} \div 330 \text{ seconds}) \times 60 = 207.2 \text{ WPM}$.

Divide 112/seconds

The purpose of his early morning venture was clear - he wanted to be the first to leave footprints on the untouched blanket of snow. Stepping outside, he felt the crunch of snow beneath his boots and the chill of the winter air as he took a deep, frosty breath. Alex spent the morning building a snowman in his yard, complete with a carrot nose and button eyes. Alex	Guys, look at this place! Have you ever seen so many books?
Bailey	Like every story ever told is in this room. But we should be careful; this place is really old.
Charlie	What's the worst that can happen? Get trapped with the ghosts of old librarians!
Dana	None of them ever wrote here about a hidden treasure in the library, only footprints of those who read the "Whispering Tome" aloud.
Elliot	The Whispering Tome is a key for those who believe in library magic.
Bailey	Uh, guys? Did you hear that noise? A book click?
Alex	No backing out now. We've got to find it. Let's look for that book!
Charlie	Found it! "The Whispering Tome" has got it. "Within the heart of stories told, lies a truth as pure as gold."
Elliot	Perhaps it's more literal. The heart of the library's center—could be where your journey begins.
Bailey	Right! The oldest section is in the middle. Let's go there.
Alex	Look! A golden heart is carved into the floor here.
Dana	There's a panel with letters here, like a combination. What's something...
Elliot	Remember the riddle. The truth as pure as gold... The word "truth" maybe?
Bailey	It's a coin! And look, there's an inscription: "The true treasure of knowledge is wisdom to share."
Alex	So the real treasure wasn't gold or riches, but the wisdom gained from these books!
Charlie	That, and this cool coin! Think the vending machine will accept it?
Elliot	No need for worry, I have the key. But you must promise to cherish the true treasure you've found tonight.
All	Thank you, Elliot!
Elliot	Remember, every book has its tale to tell!

Peyton	Time capsules are cool, but riddles? How do we even know it's real and not a hoax?
Taylor	Let's try to solve the riddle! If it's real, we could be famous!
Sam	The riddle says "A pocket of time, beneath the clock's tick, away from the sun, lies the capsule, buried deep."
Riley	The clock tower! That old clock on the north field!
Jordan	That's it! It's always been hidden in the shade of the big oak tree! Away from the sun!
Peyton	Okay, I'm intrigued. Let's go dig it out!
Taylor	Imagine the stories it could tell! It's like a piece of history's adventure!
Sam	Here we are. There's a loose brick here. Let's dig it out!
Riley	<i>(excitedly)</i> Guys, there's a metal box in here!
Jordan	That's the time capsule! We actually found it!
Peyton	Wait, we should document this. Let's make sure we can put it in a book for others to find in the future.
Taylor	It's filled with letters and photos from students back then. So cool!
Sam	They left a message for the future: "Cherish your days, they pass like a whisper."
Riley	This is incredible. We're literally touching history.
Jordan	And making history! Fifty years later, the capsule is found by us!
Peyton	We should add our own items and re-bury it for the next fifty years.
Taylor	Let's do it. And the play will end with this very moment.
All	<i>(proudly)</i> To the future!

Aria	This walkie-talkie is ancient! Where do you think it came from?
Blake	Probably from a time when dinosaurs used radios. Rawr!
Cory	There's a map tucked inside. It looks like it leads deeper into the woods.
Devon	My walkie-talkie can track our route so we don't get lost. Let's see where this leads.
Ms. Harper	I'm worried that we must stick together and be careful. The woods can be dangerous.
Aria	Check these strange markings on the trees. Do you think they're a sign?
Blake	Maybe it's a warning about alien codes!
Cory	Guys, shh! Don't talk that loud. It's like... whispering.
Devon	There's nothing on any sound frequency. The whispers don't register on any frequency. That's impossible.
Ms. Harper	It's the "Whispering Woods." Legend says the trees carry voices from the past. Can you hear what they're saying?
Aria	I think... it's guiding us! The whispers seem to be leading us.
Blake	Spooky... but also kind of awesome!
Cory	Look, there's a clearing up ahead! And what's that in the ground?
Devon	It's a time capsule! These whispers must be echoes of memories from when it was buried.
Ms. Harper	Remarkable, it's like we've found a treasure chest of history. Let's open it.
Aria	There are letters, pictures, and... hey, is that another walkie-talkie?
Blake	Bet this one talks to the future! Hey future, do we ever get hoverboards?
Cory	It's a message to us! "Remember, the true treasure of these woods is the story they tell."
Devon	And we've just added our own chapter.
Ms. Harper	Let's take this back to camp. We have a lot to discuss about preserving history—and maybe making our own.
All	To the camp! (and in a whisper) "Thanks, Whispering Woods."

Olivia	The tech in here is outdated, but maybe I can use my scanner app to see if there's hidden ink.

Mia	I'll sketch a scene. One day, when we're famous historians, this will go with a book.
Mr. Dalton	Students, remember that history is a puzzle waiting to be solved. What you're doing now is looking for the secrets.
Sam	The letter mentioned a "golden room." Do you think it's metaphorical or literal?
Olivia	My scanner just revealed a map of the school with a hidden room marked on it! This key must open it!
Lucas	I found an old blueprint! This room used to be the principal's office back in the day. We're onto something!
Mia	My sketch seems to match part of the old school design. We're standing right above this hidden room?
Mr. Dalton	This is why I teach history—it's alive and all around us, often hidden in plain sight. Proceed with caution.

Olivia	Lucas, give Sam the key! This could be the moment of truth.

EMOJIS AND EXPRESSIVE CONVENTIONS

It's an exciting time to explore how language conventions are not just rules to follow, but tools with which to be creative. One of the most vibrant examples of this playful language evolution is the use of emojis. These colourful symbols have become a language unto themselves, breaking down barriers of text to convey emotions, situations, and responses that words alone may not fully capture.

- **Example:** Expression like "I'm laughing so hard!" into a simple 😂.

Matching Match the emoji statements with their correct meanings in English.

Emoji Statement	Meaning in English
1) 🌙 🛌 🌃	A) Goodnight, I'm sleepy.
2) 🎧 🎵	B) Listening to music.
3) 🏠 📚 📝	C) Good job on your studies.

The Marigold Mysteries

In the bustling town of Marigold Heights, three figures stood out: a botanist, a blacksmith, and an archaeologist. The botanist, with a magnifying glass, peered intently at a rare flower, its petals a mosaic of colours. His notes filled a journal, the handwriting as intricate as the veins of the leaves he studied.

At the town square, the blacksmith's muscles tense, worked a piece of iron. The clang of hammer on anvil rang out in rhythmic bursts, sparks flying like miniature stars in the twilight. His forge was crafting a weathervane, destined to spin tales of the wind above Marigold Heights.

Lastly, the archaeologist brushed dirt from an ancient stone tablet, her heart racing. The carved symbols were cryptic, promising secrets of ancient knowledge. Her discovery could unlock pages of history books, filling gaps that had puzzled scholars for decades.

Their passions for flora, metal, and relics wove a story of Marigold Heights, a place where every day was an unfolding chapter of discovery and diligence.

Dr. Orion	Sensors are already picking up some fascinating rock formations. This could redefine our understanding of geology.
Lieutenant Nova	Navigation systems are set for our exploration route. Watch your step; the terrain is unpredictable.
Engineer Leo	Deploy the rover drones. They'll give us a lay of the land and help carry out our sampling.
Zara	My scanners are already picking up something. If there's life here, even microbial, we'll find it.
Captain Vega	Dr. Orion, what's your plan on those rock samples?
Dr. Orion	They're unlike anything we've seen before. The mineral composition is... changing, almost like it's alive.
Lieutenant Nova	Crew, I'm detecting a storm approaching. We need to find shelter quickly!
Engineer Leo	There's a cave system nearby. It could provide the shelter we need. Follow me!
Zara	<i>(Inside the cave)</i> Look at these wall carvings. How could they be made by intelligent beings!
Captain Vega	Incredible discovery, Zara! But let's not jump to conclusions. Let's document everything.
Dr. Orion	These carvings resemble the formations outside. There must be a connection.
Lieutenant Nova	The storm's passing. We can continue our mission and analyze these findings back on the ship.
Engineer Leo	I've collected enough data. These caves might just be natural shelters... or a map to something more.
Zara	Wait, my scanners are picking up a biological signature. It's faint, but it's definitely there!
Captain Vega	A biological signature? Zara, we need to secure a sample. This might prove we're not alone in the universe.

Sydney	I'll stay with Taylor. But you all be careful, the Whistling Thief could be lurking in the shadows!
